Packing list
Car charger*1 Manual*1

Product introduction

This product is a 3+2 intelligent sharing and expansion car charger product, which can charge 5 mobile electronic devices at the same time. The 45W large output power makes charging even faster. QC3.0, Samsung AFC, Huawei FCP fast charge protocols are supported. An 1.5-meter extension cable is added, so that the product can be used in a longer distance. The back clip can be placed anywhere according to the seat position. The CE, FCC, RoHS certifications are passed.
