## IMPORTANT SAFETY INSTRUCTIONS

1. This manual contains important safety and operating instructions.
2. Before using battery charger, read all instructions and cautionary markings on battery charger, battery, and product using battery.
3. **CAUTION** - To reduce risk of injury, charge only rechargeable batteries. Other types of batteries may burst causing injury to persons and damage.
4. Do not expose charger to rain, moisture, or snow.
5. Use of an attachment not recommended or sold by the battery charger manufacturer may result in a risk of fire, electric shock, or injury to persons.

6. Do not operate charger with damaged cigarette lighter connector - replace it immediately.
7. Do not operate charger if it has received a sharp blow, been dropped, or otherwise damaged in any way; take it to a qualified service person.
8. Do not disassemble charger.
9. To reduce risk of electric shock, unplug charger before attempting any maintenance or cleaning.
10. Connect the charger to a 5V,9V or 12V electrical system only. Some vehicles operate on 24 V electrical systems. Refer to vehicle operator's manual.
11. Using the charger for extended periods of time can completely discharge your vehicle's battery. Unplug the charger whenever the engine is switched off for extended periods of time. The power does not turn off after switching off the engine in some vehicles. If the charger is left connected, your vehicle's battery may become discharged.

12. When connecting external USB cable(s), route them in a manner that does not interfere with driving.

### Customer Service
