Operating steps

1. Connect the cork base of the bending hose to this product, put the universal joint ball into the nut first, and then insert it into the bolt on the back of the product. Tighten the nut clockwise

2. Place the suction cup in a suitable place, press the vacuum switch to fix it.

3. Adjust the position of the hose and fix the cork base of the hose on the dashboard.

4. Fix the base of the hose bracket in a suitable position on the dashboard. Then the clamping arm will open automatically just by pressing the side mechanical key.

Note:

please adjust the bottom bracket to avoid the clip arm blocking the switch button.

5. Put the mobile phone on the holder and press both ends of the clip arm to clamp the mobile phone; adjust it to the best angle you want.
